Elements Collection

These rugged, elemental decors echo the strength and integrity of traditional materials such as cast iron, stone and steel. They give you the latitude to design striking exteriors of character and real presence, full of texture and raw natural tones. But unlike their original counterparts, these color-fast finishes are very simple to maintain and clean, and exceptionally easy to handle.

Fundamentals Collection

Pairing the natural character of wood with modern materials and forms offers you an almost limitless array of design directions. Kronoart's Fundamentals are fully aligned with the concept, ranging from dramatic dark decors to light white pine and warm mid tone oaks. Highlight features, bring in contrasts, soften the impact of concrete, add definition and rich grained character – with Kronoart® you can achieve the look without the installation, maintenance and variability issues of wood.
